

## RT200 Software Compatibility

PDA running RT Commander, the RT200 Interface Module and GreenSeeker Sensors

Jan 2010

Product	Current Version
Interface Module (I/M)	1.2.0
RT Commander Software (RTC)	1.3.9
GreenSeeker Sensor	1.9.11

### Compatibility:

FMX with RT200 requires FMX 3.0, I/M 1.2.0,  
Sensors through 1.9.7 or 1.9.11+

2009 crop algorithms require RTC 1.3.9+.

RTC v1.3.x requires I/M v1.1.5+ (above SN 8826+)

I/M v1.1.5 is backward compatible with all RTC versions (1.1, 1.2, 1.3–1.3.5).

Sensor software is compatible with all I/M or RTC versions.

*Recommended updates: RT Commander 1.3.1 – 1.3.8, should update to 1.3.9+. This is a software-only upgrade that may be downloaded from GreenSeeker website.*

*Most units shipped in 2008-2009 had RTC version 1.3.7, and I/M version 1.1.8*

*Most units shipped in late 2006, 2007 had RTC version 1.3.2 and I/M version 1.1.6 and GS 1.6.9*

*Most units shipped in 2005-2006 had RTC version 1.2, and I/M version 1.1.3*
